# DATASCAN

SENIOR MANAGEMENT
ORGANIZATIONAL ANNOUNCEMENT
MAY 2022

DataScan is pleased to announce some exciting organizational changes effective immediately. The first notable change is the **retirement of former President Edward Brown.** Ed began serving as President in 2017 and played a vital role in championing the many technology initiatives DataScan has undertaken. Prior to DataScan, Ed had nearly a 20-year tenure with JM Family Enterprises, overseeing various divisions, including serving as Group Vice President of Southeast Toyota Finance.

Ed is succeeded by **Brian Koprowski, former Vice President of Operations, now serving as Chief Executive Officer, and Matt Powell, former CFO & Vice President of Business Development, promoted to President & CFO.** Koprowski and Powell are longtime DataScan associates with over 40 years of tenure collectively and have been instrumental in DataScan's continued growth and success. They will work closely to ensure continuity while ushering in new company initiatives to maintain DataScan's industry-leading position.

In addition to these changes, Brian and Matt are excited to announce the following senior promotions.

Jeff Davis, former Director of Ai Field Operations, has been promoted to Vice President of Ai Operations. He will oversee both Ai field and internal operations and will report to Brian Koprowski.

Michael Knight, former Senior Director of Technology, has been promoted to Vice President of Technology Operations. Michael will drive and oversee DataScan's technology teams,

including IT Operations, Development, Release Management, Information Security, and Quality Assurance, ensuring their leading technology position. Michael will report to Brian Koprowski.

Tino Lamberti

Tino Lamberti has been promoted to Vice President of Product. The former Director of Application Development will be responsible for the technical vision and strategy of DataScan's current and future product offerings. Tino will report to Brian Koprowski.

Brian Johnson, former Director of Client Success, has been promoted to Vice President of Revenue Operations. Brian will focus on revenue growth and Client Success within the Marketing, Business Development, Client Relations, and Application Support teams. Brian will report to Matt Powell.

Brian Johnson
